

## WELCOME NEW MEMBERS

## Membership growth continues during very busy April

In what has already been an unprecedented year for new members and membership enquiries, April has proven to be yet another bumper month for the Association with 7 well-known companies joining the NTDA's growing UK wide network of tyre industry and automotive aftercare professionals.

**TRAX**  
balance weight technology

**Trax JH Ltd**, based in Newtown, Mid-Wales, one of Europe's largest wheel balance weight producers has joined the NTDA as a supplier member. The company specialises in the design and manufacture of weights to Original Equipment (OE) specifications ensuring high performance and consistent quality. Exporting to over 25 countries, Trax is an international business with brand recognition for design, quality and service and despite only recently joining the Association has been a supporter of the NTDA Annual Dinner and other events for many years.

**MTC**  
MIDLAND TYRE CONTROL

Founded in February 2002, Bilston based **Midland Tyre Control Ltd (MTC)** has established itself as one of the leading service providers in the Midlands covering all aspects of tyre supply, service, waste management programmes, wholesale, distribution, casing management, major repairs and recycling and has joined the NTDA's newly launched **Responsible Repairer Group**.

**TRS**  
TYRES  
Complete Casing Solutions

A conservation-minded company since 1972, **TRS Tyres Ltd** in Morecambe, Lancashire, is a leading provider of tyre waste management solutions. Joining the NTDA as a member of the Responsible Repairer Group therefore makes total sense, as TRS repairs over 800 damaged truck tyres at its vulcanisation facility every week. Every damaged tyre recovered is put back into service so the operator benefits from its full life, with no reduction in performance whatsoever. Each repaired tyre contains 98% recycled material, recovering an average of 75% of its original value.

Another company joining as a Responsible Repairer is **Jade Tyres LLP** in Milton Keynes. Jade Tyres has over fifteen years' experience in the tyre industry and takes pride in its high customer service levels and professional advice on all tyre products and services. Jade Tyres offers comprehensive tyre advice and stocks a large range of replacement tyres from all major tyre manufacturers. Its mobile fitting service, which is now also in the TyreLink scheme, provides puncture repair and tyre replacement services for car, van, 4x4, truck, plant, earthmover, tractor and mower and operates within a 25-mile radius of Milton Keynes.

According to **TS Tyre Repairs Ltd** in Fareham, another new Responsible Repairer Group member of the NTDA, **"If it's rubber ... we repair it."** TS Tyres has been a leading tyre, track and rubber products repairer for over 20 years. Its vulcanised tyre and track repair services, which it offers in Hampshire, Dorset, Wiltshire, Sussex, Surrey, Berkshire and London, are perfect for all vehicles from cars to tractors, commercial trucks to earth movers.

Joining a growing number of mobile tyre fitting members of the Association is **Pro-Grip Tyres Ltd**, which was founded by Managing Director Tyrone Rodney in 2015. Tyrone who had a fair bit of knowledge about cars from a very young age decided to open up a mobile tyre service in after realising the convenience of having your tyres fitted at people's door and naturally recent events have certainly proven that he knew what he was doing. Pro-Grip, now a TyreLink member, not only goes to its customers at their homes, workplaces, gyms, shopping centres or wherever they maybe to change or repair tyres, it's technicians will also come out and give the tyres a free safety check, including to make sure they are MOT worthy.

**WALSALL WOOD**  
TYRE & SERVICE

**Walsall Wood Service & Tyre Ltd**, which has joined as a Full Tyre Distributor member, prides itself on providing a reliable full tyre and service/repair facility, with quick and efficient turnaround times. Consisting of an expert team of dedicated technicians with over 100+ combined years of experience in the motor industry, Walsall Wood is already regarded as one of the top garages in the local area. Nathan Taylor, the Managing Director of the company, leads the Walsall Wood based team and demands all staff members adhere to the core values upheld by the company.

## REMINDER:

NTDA and TRA Members don't miss out on the 2021 Tyre Industry Awards. The awards brochure and entry forms are available now from our Membership Secretary Alison Keitch via: E: [info@ntda.co.uk](mailto:info@ntda.co.uk) or T: **01296 482128**. The closing date for entries is **Friday 16th July 2021**, entries arriving after that date will not be considered.
